DETAILED ACTION

1. This Office Action is in response to the application 10/687,459 filed on 10/15/2003.
2. Claims 1, 6, 10, 15, 19, 24, 28, 33, 37, 42, 46, 51, 55, 68, 72, and 85 are independent claims;
Claims 1-88 are pending in this application.

Election/Restrictions

3. This application contains claims directed to the following patentably distinct species:
 - a. **Species 1:** Claim set (1), (2), (5), (6), (9), (10), (13), and (14) are drawn to Fig. 61.
 - b. **Species 2:** Claim set (3), (4), (7), (8), (11), (12), (15), and (16) are drawn to Fig. 63.
wherein: Claim set (1) includes claims 1-5; Claim set (2) includes claims 6-9.
Claim set (3) includes claims 10-14; Claim set (4) includes claims 15-18.
Claim set (5) includes claims 19-23; Claim set (6) includes claims 24-27.
Claim set (7) includes claims 28-32; Claim set (8) includes claims 33-36.
Claim set (9) includes claims 37-41; Claim set (10) includes claims 42-45.
Claim set (11) includes claims 46-50; Claim set (12) includes claims 51-54.
Claim set (13) includes claims 55-67; Claim set (14) includes claims 68-71.
Claim set (15) includes claims 72-84; Claim set (16) includes claims 85-88.
4. The species are independent or distinct because claims to the different species recite the mutually exclusive characteristics of such species.
 - a. **Species 1:** a method, program, and apparatus for digital content access control, wherein authenticated digital content request associated with clickable links are sent to a digital content repository (*pars. 0095 and 0301-0304*);

- b. **Species 2:** a method, program, and apparatus for digital content access control, wherein authenticated rights locker access request and indication of the right associated with clickable links are sent to a rights locker provider (*pars. 0097 and 0310-0314*);
5. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.
6. There is an examination and search burden for these patentably distinct species due to their mutually exclusive characteristics. The species require a different field of search (e.g., searching different classes/subclasses or electronic resources, or employing different search queries); and/or the prior art applicable to one species would not likely be applicable to another species; and/or the species are likely to raise different non-prior art issues under 35 U.S.C. 101 and/or 35 U.S.C. 112, first paragraph.
7. **Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species to be examined** even though the requirement may be traversed (37 CFR 1.143) **and (ii) identification of the claims encompassing the elected species**, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.
8. The election of the species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the election of species requirement, the election shall be treated as an election without traverse. Traversal must be presented at the time of election in order to be considered

timely. Failure to timely traverse the requirement will result in the loss of right to petition under 37 CFR 1.144. If claims are added after the election, applicant must indicate which of these claims are readable on the elected species.

9. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the species unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other species.
10. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141.
